

Company Description

A partner you can rely on - **Jacob Shipping** has been navigating the waters of international shipping safely and successfully since 1955. As a full-service tanker operator, we hold all the strings when it comes to tanker shipping. We cover the entire maritime service portfolio relating to the responsible and sustainable management of tankers - from sale and purchase to supervision for new buildings, procurement, chartering, insurance, maintenance and repair and the employment of qualified crews. Controlling and project management round off the service portfolio. We rely on our experienced, well-established team of employees who are highly skilled in their fields.

To accomplish our mission, we are looking for a

Technical Superintendent (m/f/d)

full-time (40h/week)

What is the role

Main Responsibility:

- Ensuring all company vessels under their control are maintained in a safe and seaworthy condition in accordance with the requirements / instructions issued by the company's Senior Management, flag state administrations and classification societies

Other Responsibilities:

- Monitoring performances of vessels allocated to with respect to condition and maintenance standard of technical equipment and ship's structure.
- Foster awareness on board for energy saving and environment protection measures
- Participating in preparation and monitoring of maintenance plans for above items and controlling the observance of the plans.
- Providing professional advice to ship personnel
- Arranging necessary technical services
- Monitoring and approving relevant requisitions
- Preparing and attending ship's dry dockings
- Attending vessels allocated to Visit/Inspection of Vessel
- Participating in development of vessel's budgets
- Monitoring costs for vessels
- Monitoring ships' reports on technical / environmental performance and consumptions
- Appraising of senior officers and carry out interview

What we need from you

- To be a team player
- Chief Engineer or degree in engineering or equivalent
- Seagoing experience as minimum 2nd Engineer level, preferred on tankers
- Good IT knowledge
- Strong communication skills
- High proficiency in English (written and orally)

What we offer

- Permanent employment contract
- Varied, responsible and challenging job
- Various opportunities to grow professionally and personally
- Flat hierarchies and eye-to-eye contact with management
- Attractive remuneration
- Attractive and easily accessible company location between the inner city and HafenCity
- Company ticket for a climate-conscious way to the office
- Flexible working hours within the framework of normal business hours
- Home office days possible by arrangement
- Familiar working atmosphere in a dynamic, open and extremely communicative team
- Various company events
